*New Light Shining was such a beacon of hope in such a dark time and it was exactly what we all needed to hear.*

Dani Moon was born in Tucson Arizona and moved to Bragg Creek, Alberta Canada at 6. She has been surrounded by music and the arts her entire life. Her stepfather, Thom Moon, is a professional drummer. With memories of Dani singing along to Ian Tyson in front of a mirror with a hairbrush when she was seven years old, it was evident Dani was born to sing.

She graduated from Theatre Arts (performing) at Mount Royal College in Calgary Alberta, but quickly realized she wanted to focus on pursuing singing and songwriting. Her first band, McLean and Moon, dropped the album "Between 11th and 10th" in 2002 which Thom Moon played and produced. Dani and Thom later created "Big Schemes Little Dreams", in 2004. The years in between and leading up to 2009 saw her living in France and Brazzaville, Congo. These experiences gave Dani countless inspiration for her music and writing.

## Moon Moods

While walking the streets of Paris songs inspired by her surroundings. In 2009 she moved back to her hometown of Bragg Creek. During her pregnancy with TRIPLETS , Dani continued to harness her creative energy with musician Tim Jeffery and later with musician Dave Hamilton to further develop her musical catalogue. "Thread Count" was released out of the Music Shed Studios in New Orleans.

Although growing up in Canada, Dani has always been drawn to soul and southern music, especially what comes out of New Orleans. Particularly Harry Connick Jr. She loves the "idea of story-telling through songwriting", and is thrilled to be collaborating with Jack Miele Productions and his team out of New Orleans on the songs for her next album, Same Moon.

*Working with Dani Moon and watching her grow as an artist has been an absolutely amazing experience. Dani always gives 150% in the studio and truly cares about the songs she is crafting, as well as how they affect the listener. New Light Shining was such a beacon of hope in such a dark time and it was exactly what we all needed to hear. That song shows the growth and introspection of her songwriting. I can't wait to hear what she comes up with next.*
